

PREMIUM HOLZ-SAUNAOFEN FINTEC JONTE

The JONTE sauna stove sets new standards worldwide in the wood-fired sauna stove segment.

In addition to its impressive performance, its ecological combustion and high-quality materials are some of its highlights.

In addition to its modern appearance, there is the proven FinTec cutting-edge technology, with which it effortlessly heats sauna rooms of up to 27m³ in a very short time and, thanks to its large stone volume, enables incomparable infusions.

Complies with
2nd stage of the
1st BImSchV
