

PREMIUM WOOD BURNING SAUNA HEATER FINTEC TROLL

Sauna heater TROLL with its classic and precious design combines state-of-the-art and safe technologies with all amenities of a wood-fired sauna.

In comparison to the competition TROLL has an enormous level of efficiency (heat input 9,94 kW) with a thermal output of 7,8 kW. This ensures::

- Fast heating of the sauna
- Cost saving due to low demand for wood
- Less amount of ash
- Particular ecological combustion

Available in Deep Black Metallic and Pearl Copper Metallic.

Complies with
the 2nd stage of
1st BimSchV

Aside from FinTec LORA the only sauna heater worldwide with approval for Switzerland.

Highlights
